

Public Health Covid Information Champions

Could you help us share information about Covid-19 in your community?

Covid has had a huge impact on everyone here in Hertfordshire and infections remain too high for our NHS services and the need for people to take up their vaccinations when they are contacted by their GPs.

We want to make sure that residents, from across every community, stay up to date with the latest guidance and advice from Public Health.

Role of the Covid Information Champion to:

- contact your community as a community leader or an individual wanting to make a difference in their communities or neighbourhood.
- reach out from your organisation that works with a particular community group.
- contact individuals who are well connected in their communities.
- share Public Health information with your own family and friends.
- sign up and adhere to Code of Conduct.

Community Help Hertfordshire (CHH) will support you as the Champion to give residents the chance to stay up to date on the latest advice about Covid.

Whoever you are - please help us to help you and others.

About our volunteers

We need organisations and individuals who:

- Want to help in the community
- Have good social skills and are ready to listen
- Can give and receive feedback
- Are reliable and dependable
- No Formal qualifications needed.

Sign up to become a Hertfordshire Covid Information Champion

- Receive the latest Public Health information about Covid directly from us.
- Share this information with anyone in your community
- Give us feedback on what is and is not working from the Public Health briefings
- Ask questions on behalf of yourself and others.
- Support will be provided by your locally based CHH team.
